

MOMBASA RELIEF INITIATIVE

An Education, Health and Economic Enrichment initiative for the children of Mombasa, Kenya.

ABOUT US

The Mombasa Relief Initiative (MRI) was conceived based on the collective vision of seven Americans and two Kenyans who wanted to find a uniform way to provide help and assistance to the children of Mombasa, Kenya. Beginning in 1993, these individuals started going to Kenya on vacation to buy art for sale in the U.S.

These trips grew into a great love for the people and culture of Kenya. Eventually, in March 2001, they formed MRI, a 501(c)3 non-profit organization.

MRI's mission is to serve the children of Mombasa, These initiatives are addressed in several programs, one of which is our Feminine Products Program.

OUR 3 KEY INITIATIVES

HEALTH PROGRAMS

Our Health programs focus on education and intervention to address basic and critical health needs. We currently feed 600+ students per day across 2 schools.

EDUCATION INITIATIVES

Our education initiatives have provided the tools necessary for students to be successful. We currently support primary, secondary and college level students.

ECONOMIC EMPOWERMENT

We empower children through training programs like "Eggs for Empowerment" that allows them to provide their own food and resources plus gain business and leadership skills.

BY THE NUMBERS

Get Involved. There are many ways you can help.

\$0.154 feeds a child per day
